

MYP

The International Baccalaureate Middle Years Programme (IB MYP) encourages our youngest students to become creative, critical and reflective thinkers.

The MYP is a purpose built framework taught at the Queensland Academy for Science Mathematics and Technology (QASMT) for students in Years 7-9. Teaching and learning in the MYP “focuses on the development of the whole child as an inquirer, both in the classroom and in the world outside” (IB, 2018). The IB MYP also relies on connecting classroom pedagogical practices and content to the world outside through the Global Contexts and the IB Learner Profile.

QASMT adopted the IB MYP because the philosophy and objectives of this programme reflect those of the Academy. In addition, the IB MYP:

- is an international framework that delivers the Australian Curriculum;
- provides assessment, within the IB MYP subjects, which share a common approach by being criterion-based and inquiry-led;
- has strong, interdisciplinary elements.
